IDENTIFIERS

ABSTRACT Designed as an aid to researchers and others primarily interested in the field of higher education, this bibliography lists documents on higher education that appeared in the January through June 1969 issues of RESEARCH IN EDUCATION (RIE). In addition to documents abstracted by the Clearinghouse on Higher Education, it includes documents on higher education that fall within the scope of other clearinghouses and thus do not appear under the HE heading in RIE. The bibliography does not for the most part, however, include materials on educational facilities or junior colleges. The 613 entries fall within the subject areas of: alumni, curriculum and innovations, faculty, finance, foreign students and education, governance, graduate and professional education, institutional structure, libraries, services and personnel, planning and coordination, research, student characteristics, student role, teaching and learning, technology, university responsibility and social change. As well as the normal bibliographic information, entries include data on the availability and price of the document and the issue of RIE in which the abstract appeared. A subject index is also included. Similar bibliographies will be prepared semi-annually. (JS)

FOREWORD

The ERIC Clearinghouse on Higher Education, one of nineteen clearinghouses established by the U.S. Office of Education, is concerned with undergraduate, graduate and professional education. A basic information-gathering function of the clearinghouses is to abstract and index documents pertaining to education. These abstracts then appear in Research in Education (RIE), a monthly publication of the Office of Education.

This bibliography lists documents on higher education that appeared in the January through June 1969 issues of RIE. In addition to documents abstracted by the Clearinghouse on Higher Education, it includes documents on higher education that fall within the scope of other clearinghouses and therefore do not appear under an HE heading in RIE. Owing to the limitations of space, documents on educational facilities are omitted, as are materials on junior colleges, unless the topic is directly related to four-year colleges and universities.

Abstracts of documents in this bibliography appear in the issue of RIE referred to in the last line of each entry. Microfiche and hard copy of the complete text are usually available from the ERIC Document Reproduction Service (EDRS), National Cash Register Company, 4936 Fairmont Avenue, Bethesda, Maryland 20014. Since compilation of the bibliography, the hard copy price of each document has increased 25 percent. Payment must be included for orders of less than five dollars. Those documents not available from EDRS may be obtained from the institution listed in the entry.

This bibliography, which will be compiled twice a year, is intended to make information retrieval a less time-consuming and more efficient operation for members of the education community. We would appreciate suggestions that will make the publication more useful. We also hope that interested researchers, faculty members, students and administrators will help us include the most significant documents on higher education in the ERIC collection by sending us appropriate materials in duplicate. Please write to the ERIC Clearinghouse on Higher Education, The George Washington University, Washington, D. C. 20006.

Dr. Carl J. Lange
Director, ERIC Clearinghouse
on Higher Education
